Model Specifications:	SW3800
Satusteam™ Volume	10-11 gal/min
Satusteam™ Pressure (in heat exchanger)	300-1200 PSI (Adjustable)
Satusteam™ Temperature:	250°F
About the SW3800 machine	
Engine	Kubota Z602 diesel engine with push button electric start
Water Pump	Belt-drive Triplex Plunger Pump with oil drain hose
Burner	Wayne 12V 25Amp Oil Fired; Burns diesel at 23L / hr
Fuel Tank Capacity	50 gal Diesel
BTU Rating	880000 BTU
Gauges	Pressure and Temperature gauges
Weight	1,600 lbs

\*Note: the consumption figures are a guide-only.

## Key Highlights

### Increased Soil Potency

Research confirms that the mulch left behind after a Satusteam™ treatment eventually increases microbial activity in the soil, making it more nutrient-rich.

### Increased Efficiency

Designed to deliver around 40L of Satusteam™ per minute, this machine has the ability to handle combinations applicator heads working simultaneously.

### No spray drift, no worries!

Weedtechnics applicator heads are carefully engineered to have the maximum effect of Satusteam™ on those annoying weeds. All the white clouds you create are just chemical free steam. It is even safe to use your treated area immediately.

### Feel empowered

Weed control with a Satusteam™ machine gives you more time in your hands to dedicate to the things you love. Keep those pesky weeds at bay without breaking your back or stressing your arms!

## What's your Satusteam™ solution?

We specialise in creating 'custom solutions' for weed control. We listen to your weed problems, analyse your concerns and design a custom solution that is special for you. With top-notch customer service and technical support, you are in for a life-changing experience. We recommend undergoing safe operations, maintenance and productivity training for 1st time machine owners.

Our patented Satusteam™ technology offers a safe zone for everybody - far removed from the obvious harmful effects of poisonous herbicides. Research confirms that Weedtechnics Satusteam™ weed control systems are 3x faster than hand weeding and leaves no toxic residues.

## The SW3800 Options:

### Custom trailer

A totally customised trailer can be designed just for you, fitted with the SW3800, 1000 litre water tank (can be bigger, up to 4000L), a variety of reels, insulated hose (30m and extendable), applicator heads and implements. It will be your complete, ready-to-go package.

### Orchard Head & Tracktech

The SW3800 has the ability to run the Weedtechnics Orchard Head 120 & the Tracktech together, perfect for treating orchard rows. The fine engineering of these Weedtechnics implements and applicator heads, allow you to get extremely close to the base of the trees, fences, irrigation systems, and conquer small obstacles that get in the way. The result, a massive increase in efficiency.

“ We have been using the Weedtechnics units for the past 8 years in the South West of Western Australia. During this period we have built up a solid foundation of clients. We can trust that the Weedtechnics SW units provide consistent and efficient results, far superior to any other steam weed control units on the market.
